KEY ACHIEVEMENTS

⚡ **Event Organizer and IoT Hackathon 2nd Place**
Organized and led the Code Crackers coding event, securing 2nd place in an IoT Hackathon, showcasing my leadership and technical skills

SKILLS

Canva   GitHub   Gen AI

MySql   JavaScript   Python

Prompt Engineering   React

SEO   Node.js   Express.js

PROJECTS

Build Your Own Dynamic Web Application
📅 11/2024 - 11/2024
Developed a variety of dynamic web applications demonstrating JavaScript fundamentals

Developer Foundations
📅 08/2024 - 08/2024
Gained foundational knowledge essential for effective software development

Introduction of Database
📅 08/2024 - 08/2024
Insight into efficient database management practices

INTERESTS

➤ **Technical Enthusiast and Reader**
Interested in following technical news and reading books

SUMMARY

Passionate full-stack developer and AI explorer with hands-on experience in React, Node.js, and MySQL. Currently focused on mastering data structures and algorithms in Python, building AI agents, and applying prompt engineering techniques. Actively exploring generative AI, automation, and intelligent system design to create real-world, impact-driven tech solutions.

EXPERIENCE

Digital Marketing Intern
3Zen Consultancy   📅 06/2024 - 07/2024   📍 Madhapur, Telangana, India

A consultancy focused on digital marketing solutions
